The World Bank,
70, Lodi Estate,
New Delhi.

Subject: Mis utilization of Funds provided by the World Bank by way of use of non standard material and under measurement area for construction of road Sangrur to Ludhiana Punjab (India) by the contractor incollusion with the concerned officers.

Respected Sir,

With due respect that I brought some points in your

knowledge for use of mis utilization of funds provided by the world bank .The concerned officers incollusion with the contractors grab the money which provided by the world bank for the purpose of development for the roads and to provide facilities to the villages but the officers and contractors mis used their powers and use the low quality material, which is within the knowledge of the concerned officer i.e Chief Engg. (RWS-North) PWD Public Health Head office, The Mall Patiala/Ludhiana and Chief Engg. (RWS-South) PWD Public Health Head office, The Mall Patiala and Ludhiana , Chief Engg. (GW) PWD Public Health Head office, The Mall Patiala/Ludhiana , Principal Secretary, Public Health Mini Secretariat, Chandigarh and Deputy Commissioner, Sangrur and Ludhiana but the concerned officers have not taken any action against the contractor or the guilty employees ,who are responsible for the above same. Number of accidents were occurred due to the negligence and more than 15 male/female were died in the road accident.The contractor and concerned officers have

not full fil their duties as per law and instructions of the world bank. All are collecting and using the funds for their persons uses. If vigilance raid at their residence etc. can recover crore and crore rupees in cash or in kind. It is also submitted that number of complaints were made by the villager and Panchayats but with no result. That all the work done at the spot is not in proper method and use standard material. In the interest of justice it is necessary to enquire the matter immediately and all the amount be recovered from the property of the guilty officers and be punished under law.

It is therefore requested that kindly depute a Competent enquiry office from New Delhi and instructed to enquire the matter after taken the samples and spot measurement in the absence of guilty contractor and concerned officer/employees and be punished as per law. He also be directed to call me at the spot at the time of enquiry.

Thanking you
